February 27, 2025

Town of Carlton  
14341 Waterport-Carlton  
Albion, NY 1441

Dear Town of Carlton Board,

Your municipality benefits directly or indirectly from the Village of Albion's sale of water to your residents. The Village of Albion presently fluoridates all waters generated from its Pure Water Facility.

The Village is considering eliminating fluoridation of the water it produces. This is to inform you that the Village will be conducting a Public Hearing at 35-37 East Bank Street, Albion New York 14411 on Wednesday March 26, 2025 at 6:00PM to address the possible removal of fluoride produced at our facility.

The Village of Albion Board of Trustees wishes invites all interested parties and residents to attend and voice their support or opposition to the proposed action being considered by the Village. Your publication of this meeting and attendance at the same, would be greatly appreciated.

If you have any questions regarding this meeting, please feel free to contract the Village Clerk, Tracy VanSkiver at 585-589-9176 or via email at [tvanskiver@villageofalbionny.com](mailto:tvanskiver@villageofalbionny.com).

Thank you for your assistance in this matter.

Very Truly Yours,

John C. Gavenda  
Village of Albion Attorney
